THE CHRISTMAS HOLIDAY season always means an added drain on the services furnished by the Missouri Utilities Co. A great many will have company for over the holidays and this means that there will be more rooms to heat, more lights to be burned and more food to be cooked

Some persons will think, probably complain, that the electricity is weak. In a great many instances of this nature, in fact most of them, a careful examination of your stoves, your furnace your light globes and connections, etc., will reveal that the trouble lies within your own home. Before company comes, before zero weather arrives go over all your connections, have them inspected carefully and see that all of the lines within your own home are in A No. 1 shape to receive the service

your Missouri Utilities Company is prepared to give you.

And we feel also that as the Yuletide Season approaches we should warn you about your Christmas tree decorations. Every Yuletide Season has its casualty list of persons injured and killed by fires from this source. Think before you decorate, think while you decorate and be careful after you decorate.

Your Missouri Utilities Co., works for you every hour of every day in the year.

JOE BIRCH MOLL, JR., WRITES FIRST LETTER TO REACH SANTA CLAUS

Claus and forwarded to The Standard from the north pole where it was sent, arrived here Monday.

It was written by Joe Birch Moll, Jr., of 119a East Malone avenue and was the first to reach The Standard, either directly from Sikeston children or from Santa, who is now extremely busy in his cold workshop.

Each year letters to Santa written by boys and girls here are published. It is with pleasure that The Standard prints young Mr. houghtful note, the first of the 1935 holiday season.

I would like to have a football and a pair of boots. Would you mind that? If you haven't that I would like to have a cowboy suit, also a few games. Joe Birch Moll, Jr.

THE CHRISTMAS HOLIDAY season always means an added drain on the services furnished by the Missouri Utilities Co. A great many will have company for over the holidays and this means that there will be more rooms to heat, more lights to be burned and more food to be cooked

Some persons will think, probably complain, that the electricity is weak. In a great many instances of this nature, in fact most of them, a careful examination of your stoves, your furnace, your light globes and connections, etc., will reveal that the trouble lies within your own home. Before company comes, before zero weather arrives go over all your connections, have them inspected carefully and see that all of the lines within your own home are in A No. 1 shape to receive the service your Missouri Utilities Company is prepared to give you.

And we feel also that as the Yuletide Season approaches we should warn you about your Christmas tree decorations. Every Yuletide Season has its casualty list of persons injured and killed by fires from this source. Think before you decorate, think while you decorate and be careful after you decorate.

PASSING INTO HIGH GEAR

Of late we have had callers from many different local-

city this size and we have also taken pains to put modest price tags on the whole lot. We should like for all our trade to see our place while it is yet spic and span.

Christmas shopping is about to be on in earnest.

Not many shopping days are left between now

Some days ago I told the public they might expect Christmas circulars by the bale right soon. And sure enough the first bale went out last week from Sikeston. One friend was thoughtful enough to place a "red hot" one on my desk for personal attention. It was a furniture circular—and did it wake me up?—AND HOW? Such descriptive words as -RIPPED, SLASH-ED, TERRIFIC, WHIRLWIND, ABLAZE, ENOR-MOUS, SENSATIONAL and other jawbreakers were used. I was "flabbergasted" of course. According to printed figures this poor furniture merchant is losing 65 per cent to 95 per cent on the original value. Shades of Abraham, Isaac and Jacob! HOW CAN THESE THINGS BE? Such tremendous losses are a blow to the industry and a reflection on the New Deal-and something ought to be done about it.

BUYERS—WISER AND WISER

I have observed during the past 37 years that the buying public of S. E. Mo., has a way of taking care of 'Number One". And they are being taught by City Slickers every week to be more cautious. The old time "three shell game" use to be the caper but it "don't go now"-More anon . . .

NOW FOR THE HOME STRETCH

Our force of salesmen are champing the bits like thorough bred race horses-simply "rearin' to go". All good ones are that way. I wouldn't give a dime a week to any salesman who does not first sell himself on the firm and goods he represents. Our boys from the negro porter to the straw boss are that way on our variety and prices and also on our rule that NO MIS-REPRESENTATIONS ARE MADE IN THIS STORE.

JUST PLAIN PICTURES—PRICES—AND FACTS

Keeping step with custom, our firm is sending out several thousand Christmas circulars this week. They are not so "hot" as the one described above—are couched in rather mild language and are at least worth looking over. The public will judge as to their contents but there is one feature worth remembering; EVERY PICTURE AND ITEM ON THEM HAS BEEN CARE-FULLY CHECKED. THE GOODS DESCRIBED ARE IN OUR STORE AT THE PRICES NAMED—RIGHT NOW-AND WE WANT TO SELL 'EM-"Just Out" is not a familiar phrase around here.
